What we focus?

Professional Approach

Professional approach is a key to our success. Our sales team is committed to respond quickly and own accountability till the end of delivery.

3D Visuals

Visualize the concept and setup before it is executed. Our designers are creative and quick to catch your idea.

Industry knowledge

Our expertise in the industry helps us to understand unique requirements of each client and recommend exclusive display solutions.

On-Time Delivery

On-time every time. All members in the team are aligned to a well planned standard work schedule.

Aesthetic Solutions

We don't provide design solutions merely, but an outcome that is aesthetic and that will enrich your brand image.

Quality Assurance

Quality is our strength. We simply don't compromise on quality to save cost. This has strengthened us in retaining every client we serve.

RESPONSIBILITIES

MODULAR FURNITURE COMPONENTS : SURFACE

Laminates are a multi-layer synthetic wood product. It is created of high-density fibre, melamine resin or wood particles. On top, the laminate has a photographic appliqué layer, which is in turn covered with a clear protective layer. The photographic appliqué layer is usually imprinted with various images that aim to imitate the appearance of real wood. These are waterproof

Acrylic plastic refers to a family of synthetic, or man-made, plastic materials containing one or more derivatives of acrylic acid. The most common acrylic plastic is polymethyl methacrylate (PMMA). Acrylic is a tough, highly transparent material with excellent resistance to uv rays and weathering. It has a highly reflective surface. These are waterproof

Membrane pressed
It is made of a thermo foil/synthetic material is a thin, tight, heat-sealed plastic wrap used to mould over an MDF substrate. These comes in rolls of 1200mm width. Grooving/Routing are possible. Edge bands are not required

Aluminum extrusion is a technique used to transform aluminium alloy into objects with a definitive cross-sectional profile for a wide range of uses. Its malleability allows it to be easily machined and cast. It can be finished by anodizing, powder coating etc

KITCHEN

“The kitchen is where you put all the ingredients together. No matter what you do in life, you have to have a plan and put it together.”

- we are modular

KITCHEN | ACCESSORIES

Modular design is a design approach that creates things out of independent parts with standard interfaces. This allows designs to be customized, upgraded, repaired and for parts to be reused.

DIVIDER PARTITION

This can be used widely in homes or apartments that have a large space, it helps to create space segmentations with a unique style.

Partitions can be used to create a separate space in a room & allows for more privacy, in case you have to share the room with a friend.

Can also be used as a bookshelf against a wall.

POOJA UNIT

The Pooja room is the most serene and pious corner of Indian homes. However, nowadays, especially in urban apartments with space constraints, having a dedicated place for prayer is a luxury.

FOYER AREA

A Warm and Inviting Well Feathered Nest Comforts The Heart And Cheers The Soul Of All Who Enter Or Come To Call.

CROCKERY UNIT

Despite changing trends and fads, the one element that continues to take centre stage in Indian homes is the crockery unit.
